Made in U.S.A.

NUMBERING & LETTERING PRESS

MONO WHEEL--AUTOMATIC CHARACTER

Model No. 40 B

The dials are made of Special High Grade Tool Steel, scientifically hardened and tempered.
The Characters are carefully engraved and make clear cut impressions of uniform depth.

Standard Dials are engraved with 42 characters

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z c ' . - & / 1 2 3 4 5 6 7 8 9 0

We can furnish different sizes of character Heights as follows:

1/16", 3/32", 1/8", 5/32", 3/16"

Carriage Table advances one space with each impression of the Dial, like a typewriter, doing rapid work, even spacing and perfect alignment.

After reaching end of the line, the carriage can be returned quickly to starting point. Spacing is accomplished by a half stroke of operating lever.

STANDARD table is 6 x 8-1/2"

Plates up to 5" wide by unlimited height can be stamped to within 4-1/4" from top of plate. We can furnish a longer Table and Rack if required. A standard Plate Clamp which clamps up to 1/8" Thick Plates is furnished.

Depth of impression is adjustable by a knurled nut on bottom of machine.

No experience is necessary to operate this press and after a few hours practice any operator can produce neat work.

DIFFERENT SIZE DIALS ARE INTERCHANGEABLE, BUT EACH SIZE CHARACTER REQUIRES A DIFFERENT SPACING RACK.
